

Negócio de exploração geotérmica

MERGERSCORP

Negócio de exploração geotérmica

O número de licença de operação do Geothermal Exploration Business está localizado no distrito de Salihli, a aproximadamente 55 km a sudeste da província de Manisa, e cobre uma área de 4939,32 hectares.

Muitos estudos geofísicos foram realizados por diferentes pesquisadores em diferentes anos no campo. Com a síntese desses dados, foram determinados 8 locais diferentes com a maior probabilidade de presença de fluido quente na área da licença.

Há dois poços geotérmicos na área da licença. O primeiro deles é o poço Arma-1 (2.482 m), perfurado para fins de pesquisa. O segundo poço perfurado no campo e usado para aquecimento de estufas é o poço D-1 (849 m).

Há muitos campos de licença de operação geotérmica adjacentes e nas proximidades da licença de operação número 2015/04. Há mais de 50 poços geotérmicos com temperaturas que variam de 65 a 287 °C nessas áreas de licença. Esses poços são usados em diferentes áreas, como geração de eletricidade, cultivo em estufas e aquecimento residencial.

Com a Simulação de Monte Carlo preparada para a área da licença, foram calculadas a possível reserva térmica de calor da área e a quantidade de energia que pode ser produzida.

Dessa forma, a reserva de calor térmico reproduzível é calculada como 2,3×10¹⁵ kJ com 85% de probabilidade, 18,6 MWe com 95% de probabilidade, 25,5 MWe com 85% de probabilidade e 57,0 MWe com 50% de probabilidade.

A reserva de calor térmico reprodutível foi calculada operando 10.000 vezes. Com a Simulação de Monte Carlo para a área de estudo, foi determinado que o valor do calor térmico que pode ser produzido no reservatório estará entre 9,7×10¹⁵ kJ e 1,6×10¹⁵ kJ no intervalo de confiança de 5%-95%. Aqui, o valor mais provável foi determinado como 4,9×10¹⁵ kJ.

O potencial de geração de eletricidade da área de licença geotérmica é planejado de acordo com o resultado da simulação de Monte Carlo para 22 anos de produção; o potencial de geração de eletricidade foi calculado entre 112,2 MWe e 18,6 MWe no intervalo de confiança de 5% a 95%. Concluiu-se que esse valor era de 57,05 MWe em média.

Dados principais

- Preço da YEKDEM: 205,13 centavos de TL/kWh
- Período de aplicação: 15 anos
- Preço da contribuição doméstica: 29,25 centavos de TL/kWh
- Período de validade da contribuição nacional: 5 anos

TARGET PRICE

\$150,000,000

BUSINESS TYPE

Energia renovável

COUNTRY

Turquia

BUSINESS ID

The information contained herein does not constitute an offer to sell or a solicitation of an offer or a recommendation to purchase securities under the securities laws of any jurisdiction, including the United States Securities Act of 1933, as amended, or any US state securities laws, or a solicitation to enter into any other transaction

The projected financial information contained in the Memorandum is based on judgmental estimates and assumptions made by the management of the target Company, about circumstances and events that have not yet taken place. Accordingly, there can be no assurance that the projected results will be attained. In particular, but without prejudice to the generality of the foregoing, no representation or warranty whatsoever is given in relation to the reasonableness or achievability of the projections contained in the Memorandum or in relation to the bases and assumptions underlying such projections and you must satisfy yourself in relation to the reasonableness, achievability and accuracy thereof.

By delivering this Memorandum, neither MergersUS Inc., nor its authorized agents are making any recommendations regarding the acquisition or strategies outlined herein. Interested parties shall exercise independent judgment in, and have sole responsibility for, determining whether an acquisition of the Company is suitable for them, and neither MergersUS Inc, nor its authorized agents have responsibility to, and will not, monitor the condition of interested parties to determine that an acquisition is or remains suitable for them. Among other things, suitability of an acquisition will depend upon an interested party's investment and business plans and financial situation.

This document is prepared for information purposes only. It is made available on the express understanding that it will be used for the sole purpose of assisting the recipients to decide whether they wish to proceed with a further investigation of the Proposed Transaction.

The recipients realize and agree that this document is not intended to form the basis of any investment decision or any other appraisal or decision regarding the Proposed Transaction, and does not constitute the basis for the contract which may be concluded in relation to the Proposed Transaction.

All information contained in this document may subsequently be updated and adjusted. MergersUS Inc. has not independently verified any of the information contained herein or on which this document is based. Neither the Company, nor its management or shareholders, nor MergersUS Inc. , nor any of their respective directors, partners, officers, employees or affiliates make any representation or warranty (express or implied) or accept or will accept any responsibility or liability regarding or in relation to the accuracy or completeness of the information contained in this document or any other written or oral information made available to any interested party or its advisers. Any liability in respect of any such information or any inaccuracy in or omission from the document is expressly disclaimed.
